Date: 12/29/2022

Pacific Coast Fruit Company  
201 NE 2<sup>nd</sup> Ave  
Portland, OR 97232

To Our Valued Customer Partners,

This is to advise you that Pacific Coast Fruit Company is **NOT** involved with the recent SunSprout Enterprises Voluntarily Recall concerning Two Lots of Alfalfa Sprouts Due to Potential Contamination with Salmonella. The FDA notification of the recall is listed below for your review.

[SunSprout Enterprises Voluntarily Recalls Two Lots of Alfalfa Sprouts Due to Potential Contamination with Salmonella | FDA](#)

SunSprout Enterprises is voluntarily recalling two lots (#4211 and 5211) of raw alfalfa sprouts in 4-ounce clamshells, with best by dates between 12/10/22 and 12/27/22, due to potential contamination with Salmonella.

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

The company directly distributed 808 pounds of product to five foodservice and grocery customers in Nebraska, Kansas, and Iowa between late November and early December 2022. No other SunSprout lot codes or products are impacted by this voluntary recall.

Best Regards,
