

Alert: The Food and Drug Administration has expanded the current Recalls on Fresh Cantaloupe Because of Possible Health Risk Due to Salmonella

Date: 11/27/2023

Pacific Coast Fruit Company
201 NE 2nd Ave
Portland, OR 97232

To Our Valued Customer Partners,

This is to advise you that Pacific Coast Fruit Company is **NOT** involved with the recently expanded recall efforts concerning Fresh Cantaloupe and fresh cut cantaloupe.

The FDA has expanded the original recall to include the following notices:

[Sofia Produce, LLC DBA Trufresh Expands Recall to Include all "Malichita" Brand and "Rudy" Brand Fresh Cantaloupe Because of Possible Health Risk Due to Salmonella | FDA:](#)

[Crown Jewels Produce Recalls "Malichita / Z Farms" Label of Whole Cantaloupes Because of Possible Health Risk Due to Salmonella | FDA:](#)

[Pacific Trellis Fruit Recalls Malichita Brand Cantaloupes Due to Possible Health Risk | FDA:](#)

[Vinyard Fruit and Vegetable Company Recalls Cantaloupe Due to Potential Salmonella Contamination | FDA:](#)

[In Association with Sofia Produce LLC DBA TruFresh Anthony Marano Co. and Market Cuts LLC .pdf \(aldi.us\)](#)

Please see the CDC notice here for further information:
[Salmonella Outbreak Linked to Cantaloupes | CDC](#)

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy people may experience fever, nausea, vomiting, diarrhea (which may be bloody), and abdominal pain. In rare cases the organism can get into the bloodstream and produce more severe illness such as arterial infections (i.e. infected aneurysms), endocarditis and arthritis.

Best Regards,

David Doble
