

Alert: Gills Onions Voluntarily Recalls Select Lots of Fresh Diced Onion Products Because of Possible Health Risk

Date: 10/24/2023

Pacific Coast Fruit Company
201 NE 2nd Ave
Portland, OR 97232

To Our Valued Customer Partners,

This is to advise you that Pacific Coast Fruit Company is **NOT** involved with the recent recall of Gills Onions branded fresh diced onions products due to potential contamination with Salmonella. The FDA notification of the recall is listed below for your review.

https://www.fda.gov/safety/recalls-market-withdrawals-safety-alerts/gills-onions-voluntarily-recalls-select-lots-fresh-diced-onion-products-because-possible-health-risk?utm_medium=email&utm_source=govdelivery

Gills Onions of Oxnard, CA is voluntarily recalling Gills Onions branded fresh diced onions products because they have the potential to be contaminated with Salmonella. The recalled products, which were sent to Arizona, California, Idaho, Montana, Oregon and Washington, are identified in the table available at the FDA link above. These recalled products are well beyond their August 2023 use-by-dates and are no longer available for sale in stores. Please check the FDA link for additional information.

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy people may experience fever, nausea, vomiting, diarrhea (which may be bloody), and abdominal pain. In rare cases the organism can get into the bloodstream and produce more severe illness such as arterial infections (i.e. infected aneurysms), endocarditis and arthritis.

See FDA notification for implicated lots and distribution areas.

Best Regards,

David Doble
